

# Make Every Bath a Safe Bath™

While bath safety is often only considered for older adults, it should be for all stages of life. From babies to boomers, Moen® offers a full range of products to make baths safe and stylish.

## GRAB BARS

GRAB ON  
TO SAFETY

Moen's line of grab bars is designed to reduce the risk of falls in the tub or shower, while blending in seamlessly with varying styles of bathroom décor.

## SHOWER SEATING

SITTING  
PRETTY

Moen seats, chairs and transfer benches make showering safer and more relaxing. Our products not only provide stability, but they also offer a host of convenient features that will make every shower more pleasant, safe and enjoyable.

## HANDHELD SHOWERS

PAUSE  
CONTROL

Water flow is reduced at the touch of a button with this handheld shower's innovative pause control feature. An easy-to-turn, oversized spray control offers shower, pulsating or massage sprays or the water-saving pause feature.

# Grab Bar Guide

## HOW MANY GRAB BARS DO I NEED AND WHERE SHOULD THEY BE INSTALLED?

Health professionals typically recommend three grab bars in a bathroom:

- A** At least one near the toilet.
- B** At least one along the showerhead wall or whichever end of the tub/shower you use to enter/exit.
- C** At least one along the back wall in the bathtub or shower.

## WHO SHOULD USE GRAB BARS?

Everyone! People of all ages and abilities can benefit from using grab bars.

## WHAT CAN A GRAB BAR DO?

- Reduce risk of falling in the tub or shower.
- Help steady yourself while getting into and out of the bathtub or shower.
- Assist in safely lowering and raising from a seated position.

## THINGS TO CONSIDER WHEN SELECTING A GRAB BAR(S):

- **Length:** Select a grab bar that is the suitable length for your bath or shower area.
- **Weight Capacity:** Choose a grab bar that at least meets ADA requirements (250 lbs.); SecureMount™ Grab Bars have a 500-pound weight-pull capacity that exceeds ADA requirements (when securely installed per instructions).
- **Installation:** Grab bars that feature SecureMount have a design that allows for secure installation into a stud or wood backing at any angle. When using SecureMount Anchors, there is no need for installation into a stud or wood backing.
- **Grip Surface:** Consider a grab bar with a textured surface or grip feature that provides a better hold in a wet bathroom environment.
- **Finish:** Consider a grab bar that matches your faucet and other fixtures.
